

FITOUTS & JOINERY

FIRE DOORS

Manufactured to Specification

40 YEARS OF DELIVERING QUALITY
PROJECTS SAFELY AND ON TIME

A Trusted Partner in Fire Door Manufacturing

With over 40 years of experience, we have completed a wide range of high-profile projects throughout Ireland, the UK and mainland Europe. We are known for delivering premium-quality doors and joinery solutions on time and to exact specification.

Operating from a 40,000 sq ft state-of-the-art workshop in Waterford, we provide a complete, one-stop solution for fit-out and joinery requirements.

DFL Fitouts & Joinery Ltd delivers compliant, high-quality fit-out and joinery solutions across the education, public realm, retail, commercial, hospitality and healthcare sectors.

Why Choose Us?

We understand the pressures of construction timelines. Our process is built to make specification, ordering and installation as straightforward as possible.

- Certified FD30 & FD60 fire doors
- Manufactured to exact specification
- Fast, reliable lead times
- Wide range of finishes
- Pre-hung doorsets available
- Full factory machining for easy installation
- One point of contact from design to delivery

Complete Joinery Solutions

Beyond fire doors, we offer a comprehensive range of complementary joinery elements designed to integrate seamlessly into your project. From glazed screens and wall panelling to skirting, architrave and ironmongery, every component is manufactured to the same high standards of quality, performance and compliance.

Glazed Screens

We manufacture and supply glazed fire-rated screens designed to deliver critical fire safety performance while maintaining a bright, open, and contemporary look. Screens effectively contain smoke and flames, helping protect occupants and

property without compromising on natural light or design intent. Constructed from solid timber, our screens offer certified fire resistance ratings ranging from 30 to 120 minutes, complying with EI (insulation) and E (Integrity) standards.

Wall Pannelling

We manufacture, supply and fit wall panelling based on your design, or architectural specification. With our expertise and assistance, we ensure you get the best value for money.

We can produce a wide variety of styles and finishes including traditional or Victorian style panelling, fire rated wall panels, washroom & IPS panels and acoustic wall panelling.

Skirting & Architrave

We manufacture a wide range of skirting and architrave in chamfered, moulded, and contemporary styles. Available in MDF, Softwood, or Hardwood, our products can be supplied prefinished with a clear lacquer or primed and ready for on-site painting.

Ironmongery

We work with a wide range of trusted suppliers to ensure you receive the most suitable hardware for your door set, while maintaining full fire compliance. A variety of styles and materials are available to meet the needs of your project.

Alternatively, you are welcome to use your own preferred supplier, and we will machine and manufacture the door set accordingly.

Product Features

DFL Fitout & Joinery Ltd specialises in the manufacture of high-quality fire doors, offering both standard sizes and bespoke solutions for off-standard or oversized requirements.

We are fully certified to produce FD30 and FD60 fire-rated doors, ensuring compliance with all relevant safety standards. Our doors are available in a wide range of finishes, including natural wood veneer, HPL laminate, and paint-grade options, allowing for flexibility in design and specification. In addition, we can offer the following features:

Acoustic Performance

Our solid core doors can be fitted with drop seals and frames with batwings which greatly improve soundproofing.

Hygienic Finishes

Laminated doors offer excellent hygienic qualities, which are favoured in high traffic environments such as hospitals, schools and offices.

Single & Double Action Doors

Allows quick & easy passage in both directions, making them ideal for high-traffic environments such as busy restaurants, hotels etc.

Pre-hung Doorsets

Fire doors can be factory hung in their frames, these will be fitted with hinges, lock and intumescents.

Glazing Options

Doors can be partially or fully glazed using clear, opaque or reeded glass, complying with EI (insulation) and E (Integrity) standards.

Paint Grade Finish

We can apply a craft paper finish to our doors; these are primed and ready for on-site painting.

CNC Machining

We can factory machine the doors and frames for hinges, locks, drop seals, flush bolts etc. for a much easier and faster installation on-site.

Timber Veneer Finishes

As well as standard veneer we can offer Marquetry, a technique that cuts and arranges veneer into intricate shapes, patterns and colours.

Compliance

All fire doors and frames supplied by DFL Fitouts & Joinery Ltd are manufactured in accordance with the **BM TRADA Q-Mark Timber Fire Door Manufacture Scheme** and the relevant Fields of Application issued by Halspan Ltd and Falcon Timber Ltd.

Third-party certification includes annual audits and periodic fire door testing to ensure ongoing compliance and quality assurance.
